NUMBER 51.

MARION'S CEMETERY

A Landscape Gardener or Park Keeper
to be Employed to Keep "The City
of the Dead"

THE RECORD-PRESS is glad to announce to the people of Marion that the much vexed problem of Cemetery supervision and care, which has been before us for a number of years, has at last been solved.

Pursuant to a notice in these columns last week, a number of Marion citizens met in the School Auditorium and perfected an organization, which has for its purpose the acquisition of and care for our "city of the dead." There were very few present at this meeting, but those few were very much in earnest.

A Cemetery Association was organized with H. K. Woods, Pres., H. V. Stone, J. E. Dodge, T. H. Cochran, Mrs. G. M. Crider and Miss Nell Walker were made directors and Miss Nell Walker, Sec'y and Mrs. G. M. Crider, Treas. The above named directors were authorized to see J. Bell Kevil, the present owner of the cemetery grounds, and secure if possible, an option thereon.

This has been done and the option is good for thirty days. The Cemetery Association is now making an effort, and hopes to be able to sell enough lots at a reduced price during the next thirty days to pay the most, if not all, of the option price.

Lots in this new cemetery have been selling for \$20., a price for several years past, but in view of this emergency and in the endeavor to get this affair in shape, the Cemetery Association has decided to sell twenty lots at \$15. per lot to the first applicants, those who make the first application to have choice of lots. After these twenty lots are sold the price will again be placed at \$20.00 a lot.

It may be best to state here, so that all may clearly understand, that this enterprise is not a money making scheme for any person or persons. All the money made by lot sale or by personal subscription or by gift is to be placed in a fund which shall be used solely for the purpose of beautifying and keeping in order the cemetery.

In order to augment this fund, it has been deemed best that all the present lot owners should pay into the treasury of this Association the sum of \$3.00 per annum for the purposes stated above. The committee requests all present lot owners to send this sum of money to Miss Nell Walker at once and she will receipt you for same. They desire to begin

this work by the first of June and so please send your subscription at once. A detailed report and itemized account will be published in this paper annually that everyone may see what has become of his subscription.

The first subscriber, for one of the twenty lots, to be sold by the cemetery committee, was John A. Moore. He got first choice. The 2nd T. A. Frazier, 3rd W. A. Blackburn, 4th W. H. Copher, 5th G. M. Crider, 6th R. H. Kemp, 7th S. M. Jenkins.

Death of a Lady Well Known in Marion.

Mrs. Charles Gallagher, one of the most beloved ladies in Marion, died there Sunday from paralysis. She had lived in the city for over fifty years and was widely known there and elsewhere. Her husband and three sons and a sister and two brothers, they being, Frank Gallagher, of Denver, Colo.; Albert Gallagher and C. Frederick Gallagher, both of Cairo, and Mrs. Reese Dugan, of Denver, Colo., and two brothers, Arnold C. Lippitt and Capt. W. D. Lippitt survive her.

Mrs. Gallagher was a visitor in former years at Crittenden Springs hotel and had friends in Marion, who remember her gracious and charming manner. Her home in Cairo was one of the mansions of that city, noted for its hospitality and many notable characters had been entertained there, among them, Gen. U. S. Grant and his family when returning from their tour around world.

The Alpine Stock Company closed a week's engagement at the Opera House here last Saturday night. They were greeted each evening by good crowds, who were loud in their praises of the manner in which the members did their work. BITS OF BYPLAY.

Some Crittenden county dirt is very poor. A certain Marion citizen was approached for a loan of a sum of money. As a precautionary measure he made an inspection. He stated that he found the ground so poor that the heads of the oats were barely out of the ground. He declined to make the investment.

??

Mr. O. L. Bass, president of the Marion Mineral Company, and a resident of Florida, was in Marion a few days ago. Mr. Bass formerly lived in Hopkinsville and together with his neighbor, Mr. R. E. Cooper, they came to Marion and made some heavy investments in the mining business. This was about the year 1902. Since that time Mr. Bass has removed to Florida, the land of sunshine, alligators and J. W. Bigham. Mr. Bass made his first money in the pine woods of the Carolinas. Immense fortunes have been accumulated in the last fifteen years in pine tar. The making of pine tar and dye-making from coal tar are the healthiest trades in the world. Tar and the smell of it is the best of all tissue builders. The average life of a tar worker is eighty-six years. The moral is eighty per cent. lower than in any other factory trade.

??

A man walked into a store in Marion one day and said:

"Have you any pine tar?"

Not hearing the question very well the merchant replied,

"No, I have not been on a tear since last March."

Dan Riley is back. We did not hardly expect him. He is anxious to get away to Texas again with his family, but the present epidemic of measles has a firm hold on his family. It is very interesting to hear the news from Texas hot off the bat. Dan Riley is not the only one who came back from Texas. There are others. From what we can learn Hereford and Portales are fine towns. Everybody and everybody's brother in that country is a land agent. Farms, quartersections, sections and whole townships change hands at the twinkle of an eye. The purchaser of today is the seller of tomorrow and the poor recorded of deeds is the most overworked individual in the whole state. The real estate agents of those pan handle towns are certainly up-to-date. They no more and live more in one day than the ordinary Kentucky man does in five days. They own their own horses and rigs and automobiles and their trades and sales are made with a breezy slap dash that quite takes your breath. A good story is told of a Kentucky tenderfoot. No doubt the same thing has happened frequently to other tenderfooted strangers. Mr. Tenderfoot alighted from the train with a pocket full of the long green. He was hungry and thirsting after land. He wanted a section about six miles from town. All was bustle and fuss. He was carefully stowed away in a sixty horse power automobile, the driver mounted the front seat and threw open the throttle. With a honk-i-ty honk the huge machine tore across the level country leaving behind a cloud of dust permeated by a bad smell. A wordy description of God's country fell from the agent's lips in a continuous stream. In a few minutes they were there. The particular section suited. The return trip was made in like manner. With lightning like rapidity the deal was closed. The particular section belonged to a party in Michigan or Maine and it "he only knew how land was selling down here you would have to pay \$4 more per acre, Mr. Tenderfoot, which multiplied

by 640 would be \$2560. Mr. Tenderfoot you are a lucky man. Thank you." A few months after this Mr. Tenderfoot endeavored to close out this good thing section and stated to the would be purchaser that it was six miles from town. He was more or less jarred to find upon strict examination and due investigation that it was thirty-eight miles from town. The swift moving automobile had annihilated space.

Texas is a land of all kinds of climate. You can get anything you are looking for there which recalls the story of the yoke of cattle. The man who owned the cattle was telling of "where he came from" and what a changeable climate it was. In driving his yoke of cattle one day one of them became overheated and died. In order to save what he could he proceeded to skin the dead ox, but before he could get him skinned the other froze to death.

A Compromise Suggested.

Evansville, Ind., May 17.—The first blood shed in the street car strike, that was called yesterday, came this afternoon about 2 o'clock, when a street car on the Walnut-street line, going at full speed, dashed into the front of a confectionary, tearing away the whole front of the structure, killing one person, mortally injuring two persons and seriously injuring several others.

"I lost flesh and never felt well and doctored with leading physicians and tried all remedies suggested without relief. Finally I tried Foley's Kidney Cure and less than two bottles completely cured me and I am now sound and well." During the summer kidney irregularities are often caused by excessive drinking or being overheated. Attend to the kidneys at once by using Foley's Kidney Cure. Sold by J. H. Orme.

To Our Girls.

It is not trial marriage that is necessary to bring about a much needed reform along this line, but higher standards. Being a woman I can but say: "Girls hitch your wagons to a star," for I know that if girls would only demand more from the young men they associate with and leave them severely alone until they raise the standard, it would not be long until conditions would be better. It is useless to add the same advice to young men also for they will not associate with a young lady (that is, with any serious intentions) unless they think she is pure and good. But I here some one say, "It is either that kind of a young man or none at all in my community." Well, then, as you value your future happiness, let it be none at all. I once heard a young lady say, "Oh yes, mother wants me marry up in 'G', but I don't want a man that thinks he is so nice and has a good education, for he would always be saying things that I would not understand." Let me add that she got just what she bargained for and she usually understands what he means when he speaks, especially if he has just returned from town. Girls you do not need to be highly educated to know that it is ungentlemanly for a young man to smoke or chew tobacco in your presence, or out of it for that matter, or use profane language, and I have heard young men use language in the presence of young ladies they were keeping company with that would almost shock the sensibilities of the brute creation.

Think of a young lady laughing about a hole burned in a good dress skirt from a cigarette her sweetheart was smoking, and then wonder why our young men have not higher standards.—Woman's National Daily

State College Notes.

The work on the new agricultural building is being rapidly pushed toward completion.

The construction of the new library building is well under way. When completed, the building will add much to the appearance of the campus and the enlarged library will contribute greatly to the welfare of the College.

A large number of teachers who are attending the Normal Department of the State College will complete either the State diploma course this term. Many have already secured good positions for next year, but there are still a few who are available. School Boards in need of thoroughly competent teachers should correspond with Prof. Milford White State College, Lexington, Ky.

Students who are planning to remain at the College to attend the Summer session are pleased to know that the Kentucky Chautauqua has been reorganized and will hold an assembly beginning June 24 and continuing two weeks. Special rates will be in all probability be made to students of the Summer school. The best talent of the American platform will be secured. The opportunity of attending such a great educational gathering will, in itself, justify any teacher's attendance.

The tendency on the part of Normal students to remain to the end of the term is encouraging. In the past, many of the students of this department went home early in the Spring. This year only one has left the College.

The year's greatest victory among the students at the State College was the winning of the decision in the Intercollegiate Debate between State College and Kentucky University, on April 19th. The question was "Resolved that the United States would be justifiable in establishing her permanent rule in Cuba." Kentucky University affirmed, and State College denied. The negative won four votes out of five. Each of the winning speakers, B. T. Towery, Virgil Moore and R. L. McPherson, received a gold medal.

The late H. C. Bennett, of Connecticut, in his will left the sum of \$10,000.00 to be divided among twenty-five colleges, each to become the beneficiary in the sum of \$400. The annual income from the amount was, by the terms of the will, to go toward awarding a medal or cash prize, as the winner should elect, for the best written essay on the essential conditions of a Free Government, or one on the Growth and Development of a Constitutional Gov-

ernment. Hon. W. J. Bryan was named executor of the will and communicated with Gov. J. C. W. Beckham, who named State College as the beneficiary in Kentucky. The trustees of the College named Pres. Patterson as custodian of the funds, which will yield an annual income of \$20.00. April 14th was chosen as the day for awarding this prize, the first being bestowed on April 14, 1906, on A. O. Bowden, of Graves county; the second on A. W. Babbage, of Cloverport. Mr. Babbage is a Junior Classic of the State College. The essay which won the prize had for its subject The Growth and Development of Constitutional Government. It consisted of more than ten thousand words and was replete with interest and instruction, the result of much thought and research on the part of the author.

Stop That Cold

To check early colds or Grippe with "Preventics" means sure defeat for Pneumonia. To stop a cold with Preventics is safer than to let it run and be obliged to cure it afterwards. To be sure, Preventics will cure even a deeply seated cold, but taken early—at the sneeze stage—they break, or head off these early colds. That's surely better. That's why they are called Preventics. Preventics are little Candy Cold Cures. No Quinine, no physic, nothing sickening. Nice for the children—and thoroughly safe too. If you feel chilly, if you sneeze, if you ache all over, think of Preventics. Promptness may also save half your usual sickness. And don't forget your child. If there is feverishness, night or day. Herein probably lies Preventics' greatest efficiency. Sold in 5c boxes for the pocket, also in 25c boxes of 48 Preventics. Insist on your druggists giving you

LAWSON SEES POPE

Went in Feeling Six Feet High and
Came Out Less Than Two Feet.

In a cablegram from Rome to the New York American, Thomas W. Lawson thus describes his visit to Pope Pius:

Rome, Italy, May 8.—I have had an interview with his holiness, Pope Pius, and my morning at the vatican was, I may truly say, the most interesting experience of my life.

At first I was struck by the pope's extreme simplicity and magnificent surroundings. Pope Pius is that rarity, a perfectly natural man. After seeing him I can understand why the cardinals elected him. He is transparently honest and one of the most remarkable and touching things about him is that his tenderness and gentleness are almost more motherly than fatherly.

But, back of all this, I recognized a force and solidity of character that are extraordinary. It was borne in on me that when Pope Pius makes his decision no earthly power can move him. If the French government thinks the pope will yield in the present struggle between the vatican and the elysee it is mistaken.

Perhaps I can best convey the impression of the man's overwhelming atmosphere of power when I say that when I entered his presence I thought myself six feet tall; when I left it I felt that I was less than two feet high.

I always knew that the Catholic church was an immense force in the world and that it is especially a force in America, but that quiet, kindly, white-robed figure in the vatican, with 250,000,000 human beings behind him, brought the truth graphically, personally home to me.

During my conversation with the pope he spoke of the American bishops and Catholics, their attitude toward and their help to him, as an immense consolation in his many trials.

After my audience with the pope I visited Cardinal Merry del Val, the papal secretary of state. We talked for three-quarters of an hour about the great questions of the day. The cardinal also referred enthusiastically to American Catholicism.

The cardinal struck me especially as having the trait which I have always noticed as being eminently characteristic of the really great men—that is, an eagerness, constant and insatiable to learn.

He is a wonderfully open-minded

man, and seems to understand American conditions, domestic, political religious, as thoroughly as though he were on the spot. Perhaps more so, for he sees with a horizon, so that between him and it there is the distance which enables a man to judge of groups and not be swayed by parties.

The pope and his secretary of state form a notable and excellent contrast. In conclusion, let me say that I think one of the wisest steps Pope Pius ever took was his selection Cardinal Merry del Val as his chief helper.

Young Men Wanted.

All young men who want to enter business pursuits have now the opportunity of a life-time, if they will only equip themselves with a good commercial education. It means much when large commercial schools like the Business University at Bowling Green, Ky. are almost daily called upon for more bookkeepers than they can supply. The institution above referred to will gladly furnish literature fully setting forth the cost, time, etc., required to complete a business education.

Fined \$500 for Re-Using 2-Cent Stamp.

Louisville, Ky., May 15.—G. W. Thompson, of Savoyard, Ky., indicted by the Federal grand jury at Owensboro last week for re-using a previously cancelled postage stamp, pleaded guilty in the Federal Court yesterday morning and Judge Evans assessed a fine of \$500 against him. Thompson paid the fine.

The defendant is prominent and well-to-do. He has persistently refused to discuss the trouble, so the officers say, and made no statement as to the motive prompting him to use a cancelled two-cent stamp. When called to the bar yesterday morning and asked for his plea he said: "Well, the inspector says I am guilty."

"That is not the question. What have you to say for yourself?" said Judge Evans. The defendant quickly replied that he wished to enter a plea of guilty.

THURSDAY, MAY 23, 1907.

We are authorized to announce
R. H. THOMAS

a candidate for Assessor, to fill out the unexpired term of J. Anthony Davidson, subject to the action of the Republican party. He endorses the local option law.

In a recent article on the freight carried on inland waterways, the transportation facilities are "alarmingly inadequate" so far as the railroads were equipped in mileage, cars and motive power. The expression was none too strong. It has been appreciated for years and the singular feature of the question is that the great railway managers, while last to admit the fact, are now foremost in their concession that while railway facilities are being increased, the volume of trade and commerce is annually increasing at a rate with which they cannot hope to keep pace. It is a fact that needs no demonstration; neither does it need demonstration that without means of transportation to a market, no article is of the slightest value, no matter what amount of expenditure has been employed in its production. The railway men, no less than the manufacturer and the merchant, the farmer and the miner, are agreed that the relief can only be found in the adequate improvement of the natural highways of the country, such as the Ohio River is affording a continuous, a broad, a cheap, a safe and a switchless road for traffic, not confined between narrow rails, but upon which magnificent fleets may pass without necessity for side tracking and on which there would be no blocks to be cleared for the passage of another fleet. That would be the Ohio river

improved to its nine foot stage and of the imperative necessity for the fact that the tonnage of one of its cities, Pittsburg, exceeded 120,000, 000 tons in 1906 is ample to establish. There is not a community on the banks of the Ohio which does not know and appreciate the strangle hold which inadequate facilities for transportation has upon its trade and commerce. Nor is there a community that does not know that with adequate facilities, such as would be furnished by the nine foot stage in the Ohio, the tonnage of Pittsburg, enormous though it is, would be greatly increased. So would the tonnage of every community in the Ohio Valley be increased over its present proportions. Facilities for transportation mean increase in business as certainly as inadequate facilities, such as exist today, mean periods of stagnation where there should be one constant period of business and industrial activity. The Ohio Valley owes it to the whole country, no less than its own enterprises, to march steadily and in unity to the accomplishment of the nine foot stage from Pittsburg to Cairo.

The dream of dollar wheat has come true.

Look on the poor with gentle eyes for in such habits often angels desire alms.

"I will not stand for re-election" says Senator Platt. Which is very well, as it is not at all probable that New York would stand for it either.

A Republican exchange says that Sec'y Taft has the right-of-way. If that is true and the way is narrow, no one will be able to pass him.

This thing of winter lingering in the lap of spring, has become scandalous. If he treats summer that way we should jab him with a hat pin.

The only way for the weather bureau to regain public confidence, will be to issue a prediction that it will be warm about the middle of July.

It must have given Col. Watterson a distinct shock to see how the New York State Committee sat down on the Hughes Presidential boom, as soon as Mr. Odell took it out of his pocket.

"Is handwriting held in high esteem?" asks the Springfield Republican. It depends on whether you are considering a love-letter or a request to "please remit."

In Chicago they are finding fault with the exits of the lunch clubs. It does not speak well for the quality of the lunches if there is a rush to go out.

Delaware has a law making it a crime to drink on a railroad train in that state. Some people have begun to be thankful that it doesn't take long to get out of the state.

That Connecticut man who reports having seen a red headed octopus, may not be prevaricating. Between the President and the courts, the octopus had enough trouble to make it red headed.

It is said that the automobile habit has almost put the diamond stores out of business in Paris. Few are wealthy enough to afford both luxuries.

A scientist predicts that automobiles will be unknown in ten years from now and that every one will travel in airships. If this man ever runs for office he will get the entire pedestrian vote.

Change at Marion Milling Co.

We have been fortunate in securing the services of M. A. Wing, one of the best millers in this end of the state. With our mill equipped with all the latest improvements and an expert miller at the head, we can with confidence promise our patrons as fine flour and meal as it is possible for up to date machinery to make.

We are in the market at all times for wheat and corn at the highest market price.

We thank our friends for their liberal patronage in the past, and by fair dealing, hope to merit your continued patronage and confidence.

Yours truly,

A GORGEOUS SIGHT

Gentry Bros. Parade a World of
Wonder and Glittering Grandeur.

Tomorrow, Friday, the first of the two performances to be given in Marion by the Gentry Bros. will take place at 2 p. m. Again at night a second exhibition will be given and the Shows will have come and gone. It is more than likely that Gentry Bros. will be the only tent show to visit Marion this year. One of the "big ones" may come later on, but it will be late in October before it arrives. Gentry Bros. have an excellent exhibition, and from all reports it is much better than when seen here last. Whether another comes or not it makes no difference in the receipts of the Gentry's. They have always played to capacity at every performance in all cities and the visit tomorrow will prove no exception to the rule. The street parade takes place at 10 o'clock tomorrow morning. It is brand new and more gorgeous than ever. It was officially reviewed by Gov. Campbell, his staff and the entire Senate on the second visit to Austin, Texas six weeks ago.

For a cold or a cough take Kennedy's Laxative Cough Syrup. It contains no opiates and gently moves the bowels, thereby driving the cold entirely from the system. Conforms to the National Pure Food and Drug Law. Sold by J. H. Orme.

SKIPPER-BIGHAM

Popular Young Couple Married at
Methodist Church.

Wednesday evening, April 17, a short time before prayer meeting a quiet wedding took place at the Methodist church. Mr. Glenn Skipper and Miss Nina Belle Bigham being the contracting parties. The ceremony was witnessed by quite a number of friends and relatives and was performed by Rev. J. P. Hilburn, pastor of the church.

The bride was one of Barstow's fairest maidens, a lovable and popular young lady, and daughter of Rev. J. W. Bigham, presiding elder of this district. The groom is a rising young man, and son of our postmaster, E. E. Skipper. He is identified with many business enterprises in this and DeSoto county, and has a bright future before him.

Immediately after the ceremony Mr. and Mrs. Skipper drove to the A. C. L. depot and took the train for a wedding trip through the West. The best wishes of a large circle of friends go with them and it is our hope they may find their wedded life prosperous and happy.—Courier-Intendant, Bartow, Fla.

GENTRY BROS. SHOWS

World's Greatest Trained Animal Exhibition
The Childrens Fairyland.

Springtime is always welcomed with gladness as it brings us the beautiful flowers, sunshine, and one of the greatest pleasures of our lives at all stages—the circus. The latter has been the most popular form of public amusement from the days of ancient Rome to modern age of hustle and commercialism. It has always been and always will be, the most healthy and moral form of amusement for the children as well as the grown up people, as it affords not only excitement, wonder, mirth and enjoyment, but also education as it demonstrates man's superiority to and his influence over the animal creation. The Gentry Brothers' Famous Shows United which open here on Friday, May 24, are well known all over the world as the highest class and finest of all trained animal shows traveling. For twenty-five years Gentry Brothers have devoted their entire time and attention to, and have expended enormous amounts of money on the training of elephants, dogs, ponies, monkeys, and other animals, until they have presented to the public the most wonderful and greatest educational exhibition of animal training ever seen which has delighted countless thousands and made the Gentry Shows known thruout the civilized world.

Some of the features of the Show which will be seen here on Friday next are funniest and most comical clown elephants ever seen; Kokoma, the trained wise monkey doctor; Dick, the high diving dog; a troupe of trained monkey gymnasts and acrobats; a herd of performing elephants and over (200) cute and tiny ponies who do all kinds of tricks, to say nothing of the famous troupes of performing dogs, and the most comical of all, the monkey fire Brigade.

Aside from these features they have secured a number of feature acts by the star performers of the day. This part of the programme being headed by the Six Marvelous Juggling Normans, a troupe of club swinging and juggling performers who were lately the wonders of Europe, and the Mikado's Own Namba Imperial Japanese Troupe of gymnasts, acrobats, contortionists, etc., who have been brought to this country for this season only, for The Gentry Brothers' Shows.

Everything with circus is, like all the acts, entirely new, and combined shows present a street parade nearly a mile long which for grandeur and glittering gorgeousness will eclipse any similar pageant ever seen here.

We Trust Doctors

If you are suffering from
impure blood, thin blood, debility, nervousness, exhaustion, you should begin at once with Ayer's Sarsaparilla, the Sarsaparilla you have known all your life. Your doctor knows it, too. Ask him about it.

You must look well after the condition of your liver and bowels. Unless there is daily action of the bowels, poisonous products are absorbed, causing headache, biliousness, nausea, dyspepsia, and thus preventing the Sarsaparilla from doing its best work. Ayer's Pills are liver pills. Act gently, all vegetable. The dose is only one pill at bedtime.

CONSTIPATION

is no respect of age, and it is just as common a condition among children as it is with their parents. The condition is more likely to reach an acute stage, develop seriously with the little folks, because of the difficulty in detecting it.

A Hard Debt to Pay.

"I owe a debt of gratitude that can never be paid off," writes G. S. Clark, of Westfield, Iowa, "for my rescue from death, by Dr. King's New Discovery. Both lungs were so seriously affected that death seemed imminent, when I commenced taking New Discovery. The ominous dry, hacking cough quit before the first bottle was used, and two more bottles made a complete cure." Nothing has ever equaled New Discovery for coughs, colds and all throat and lung complaints. Guaranteed by J. H. Orme druggist, 50c and \$1.00. Trial bottle free.

Keep Your Nerve

It is nerve energy that runs the organs of your body. The storage battery is the nerve cells in the brain and spinal cord, and from this battery nerve force is sent out through the system of nerves. To keep the body healthy you must have plenty of nerve force; if you have not, the organs work imperfectly, the circulation is sluggish, digestion bad, appetite poor, kidneys inactive, and aches, pains and misery are the penalty.

You can keep the system strong with Dr. Miles' Nerve. It assists in generating nerve energy; it strengthens the nerves and makes the whole system strong and vigorous.

"I take pleasure in recommending Dr. Miles' Nerve to those suffering from nervous prostration, insomnia and melancholy. After several months suffering from above diseases I tried this medicine and found immediate relief. It soothes and strengthens the nerves, chases away the gloomy and depressing thoughts and gives the sufferer renewed strength and hope. It is a superb nerve restorer."

Madison, Wisconsin.

In Memoriam.

Mrs. Gertrude Ryan, wife of James R. Ryan, Jr., and daughter of Mr. and Mrs. E. P. Dever, of Livingston county, died at her home in Salem, Ky., March 9th, 1907.

She was born in Webster county, Ky., Feb. 10th, 1885. And was married to James R. Ryan Jr., Feb. 3rd 1904. She was twenty-two years and twenty-six days old at the time of her death. And professed religion early in life, and lived a good christian until death claimed her as its own. Gertrude, subject of this sketch, was a good daughter, a loving and devoted wife, and affectionate mother and a friend to all and loved by all who knew her.

She leaves a dear companion, two lovely little children, ranging in ages from eight months to two years of age.

Parents, brothers, sisters, relatives and friends, so many all to miss her. The remains were laid to rest in the Ryan cemetery. The writer has been made to feel so many times like Oh! we can't give Gertrude up, but though we must Oh! may God bind

up our troubled hearts. Cheer up bereaved husband, he giveth only to take away and all the dearest ties of this life must sooner or later be broken, death will enter every dear dear home. A sainted wife and mother has gone before, and Oh! may her dear husband and two children together with all of us meet her in a glorious world.

From husband and children so dear, She has flown to that realm of light above.

She looks down from the starry skies, On the one she loved while here.

Her sister-in-law, J. F. D.

Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves". Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write for my free book now Dr. Shoop's Restorative.
